OUR MISSION STATEMENT

Focusing on saving Death Row Dogs from kill shelters; fostering them in a home; providing them with all the love and medical attention they require until they find their forever homes; educating the community about the animal over-population problem and the importance of spaying and neutering pets.

Eleventh Hour Rescue is made up of dedicated individuals who believe that innocent pets deserve love and a place to live where they are honored and cared for. No dog deserves to die because it does not have a home. We rescue dogs at their eleventh hour—when they are scheduled to be put to death by shelters that can no longer care for them. We give the dogs all the medical attention they require, a place to live, and through our adoption services, a second chance at a happy and fulfilled life. We are affiliated with many like minded animal group throughout the United States.

Approximately 7 million pets will die this year in shelters across the United States. Some will die humanely and some will die a slow and frightening death. They will die with a feeling of abandonment, lonesomeness and fear. Yet these dogs are real, they are living breathing beings that crave love, companionship and trust and offer the same in return. They do feel pain, hunger and sadness and we do what we do because we want to make a difference. If we can bring comfort to just one we will. If we can save just one life we will. We will not stop until all the cages are empty. Please visit our site to donate, volunteer and see all our adoptable pets at "http://members.petfinder.org.nj376/home.htm."

BOOGIE'S tales

First let me say happy holidays to everyone! Just in case I forget. Now, many people wonder how a great cat like me wound up in a high kill shelter! Well, sad to say, my family just did not want me any more. But many older pets end up in shelters because the owner passed away. This is always a very sad thing and it happens a lot. The family members sometimes just cannot take the pet or they don't want the pet. That happened to my brother Scooter. Mom calls him Scoots. His owner passed away and he was brought to a shelter but fortunately a rescue group took him out just like they did for me. Other times, owners are moving and cannot take their pets. Well, I have to be honest and say, most of the time I just don't buy it. My mom has lived in several apartments that did not allow pets. She always had a cat or two cats. And when she moved, she took her cats. I guess dogs are different, you cannot "hide" them but my mom would never move to a place that did not allow pets so I just think moving without a pet is the same as not wanting the pet. And this is just sad and makes me mad. We have feelings too. I am grateful mom found me. Now Mom, where are those potato latkes you promised to make!! Molly wants some too! This is Boogie saying Happy New Year and don't forget to pet your pets everyday. ***Love, Boogie!***

Beagle Bites by Molly

Trick or treat? Well I say treat first. So when mom went out to see a play, I ate **ALL** the Halloween candy in the bowl. Boy was I full! I even ate the wrappers. Mom was upset when she came home as chocolate is bad for dogs but I was ok, just an upset tummy! Now for the tricks! I know two, I can sit up and beg and I can crawl on the carpet on my belly! Of course I get treats for this!! The tricks training has been fun for me.! Anyway, happy holidays to everyone, human and pet!
This is Molly saying—**senior dogs rule!!**

Happy Holidays!
